

# Getting Started with Zoom

End-User QuickStart Guide

## Before You Start:

Before you can host a meeting with Zoom, you must have the Zoom Desktop Client software installed on your computer or device. If applicable, visit <https://zoom.us/download> to download and self-install the Zoom Client for Meetings.

## Setup & Configuration

### Zoom Web Portal:

Visit <https://zoom.us/signin> or <http://{vanity}.zoom.us/signin> and enter your email address and password. Upon sign in you will be taken to your Profile page.

Highlights of this page are:

- Setting your profile picture (persists through the Zoom platform).
- Editing your [Personal Meeting ID/Personal Link](#)
- This is your personal dedicated virtual meeting space. You can use it at any time or schedule it for future use.

After configuring your profile, we recommend going to the Meeting Settings tab to configure your preferences based on how you would like to conduct meetings.

### Zoom Desktop Client:

1. Once the Zoom Client for Meetings is installed, click the Sign In button
2. Click "Sign In with SSO" {or path designated by customer}
3. Enter {company domain} if prompted for a company domain
4. Enter in your {SSO credentials} user name and password on the login screen

You now have the Zoom client for Meetings installed. Best practice is to have Zoom start when your computer boots up.

Learn more: [Zoom Client Settings](#)

- On **Windows**, go to the Zoom client and click on your profile picture at the top right, then click Settings. Click on General and then check the box that says, "Start Zoom when I start Windows".
- On **Mac**, right-click the Zoom app in the Dock, select Options > Open at Login.

## Scheduling Zoom Meetings

Zoom offers you several ways to schedule your meetings. If you're using Google calendar or Outlook, we recommend installing an applicable plug-in or extension for ease of use and efficiency when scheduling Zoom meetings. See below for additional information.

## Zoom Best Practices

### Before the Meeting:

- Test your Audio and Video
- Make sure to choose the correct audio and video sources
- Have the content and applications that you intend to share open and prepared ahead of time
- Close applications that have pop ups

### Hosting A Meeting:

- Mute your mic if others are presenting/speaking
- Use “Gallery View” for smaller group/team meetings
- Share your screen
- Share specific Applications to control displayed content
- Use “New Share” to seamlessly transition between shared applications.
- Use the Annotation tools to grab and direct attention

### Turn the camera on!

- Put your webcam at eye level or higher – experiment for best angles
- Make Eye Contact - Try to look at your webcam versus the screen
